

REMARKS

Applicants respectfully request entry of the paper substitute sequence listing and computer readable form (CRF) thereof, concurrently filed herewith. The contents of the paper listing and the CRF are the same.

The new sequence listing is identical to the sequence listing currently on file and also includes SEQ ID NOs: 66-535. These sequences are disclosed in the Specification's Table 4 and as such, do not constitute new matter.

Applicants also respectfully request the entry of amended Table 4 as shown herein. The table has been amended in order to insert the requisite sequence identifiers. No new matter is inserted thereby.
